Flexibility
Is the new black
Accelus
Shaping the future of human potential
Globally, all three key generations in the workforce; Millennials, Gen X and Baby Boomers – agree they are most productive when they’re not in the office (FlexJobs, 2016).
WHY?

Increased productivity
Engagement
Attraction and retention
Decrease in absenteeism
Harness greater innovation and creativity
Increased cost savings
Staff with a greater sense of well-being
Environmental
Sabbatical  
Flexible working hours  
Job sharing  
Access to co-working spaces  
Compressed working weeks  
Purchased annual leave  
Time in lieu  
Unplanned leave  
Telecommuting
Flexibility and the future of work
Emergence of agile talent
Highly skilled talent choosing contingency based work
Traditional Career Model

Agile Career Model
Flexibility is the future of work

Blurring of lines
Disruption
How would you redesign the way you work?
